PROJECTS

Project	Vehicle Theft Intimation Over SMS and Remote Control of its Engine
Summary	The main objective of our project is if anyone tries to start the vehicle without the permission of the owner, the vibration sensor will know the irregularity of the vehicle and send it to the microcontroller which will inform the owner via GSM and the buzzer will turn on. The owner can then send back an SMS to stop the engine remotely.
Main Technologies	Embedded C

Responsibilities	<ul style="list-style-type: none"> • Understood the requirement • Designed code under the guidance of professor • Designed the circuit • Implemented the project
-------------------------	--

TECHNICAL SKILLS

Environments	Windows
Languages	C, OOPS, C#, Basics of Java
Web Development	HTML, CSS
Databases	MS SQL
Development Tools	VS Code , Visual Studio Community
Domains	Development

STRENGTHS

- Adaptability,
- Positive Attitude ,
- Strong Communication Skills

DECLARATION

I hereby declare that all the above mentioned information given by me is true and correct to the best of my knowledge and belief.
